

# Sprinkler Systems by: Turf industries, inc.

A professionally installed sprinkler system can save time and energy and add to the value of your home. It means no more hauling the garden hose around. No more uneven watering, which can cause your grass or shrubs to get too little or too much water.

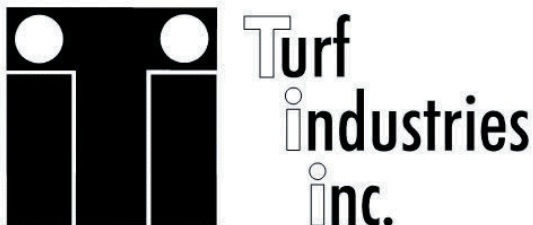

Don't spend your evenings & weekends  
Dragging a hose and sprinkler  
around  
your yard.....

You have better things to do!
